

# Automatic Pool Roller

Welcome to our world where function meets form and leisure becomes luxury.

Introducing the Automatic Pool Roller.

Automatically rolls your pool cover off the pool and onto the roller electrically.

Makes putting the pool blanket on the pool much easier than before. Simply pull the cover off the roller and onto the pool. The power assist roller will help you by letting the cover come off the roller easily at your working speed.

## Design Features

- Adjustable windup speed controller
- Frictionless bearings
- Built in microchip controller
- Plugs into household 115V or 220V GFCI outlet
- Accommodates covers up to 20' x 60'

## Benefits

- Power assist motors help you pull your cover onto the pool manually
- Winds up your cover by itself, electrically Automatic, electric safety switch
- Saves time, saves energy and heat
- Trackless system

## Warranty

Automatic Pool Roller comes with a 2 year warranty.
